Most of us have played around with make-up since we were little girls raiding our mother's make up bags. But how many of us can honestly lay claim to knowing how to apply make up properly. The application of make-up is a skill that women are expected to possess, and yet one in which they very rarely receive any formal training. The secret of make up is to enhance your natural beauty and emphasise features you didn't even realise you had. Our make-up lessons are designed to do just that, we will teach you new techniques that are right for you.
